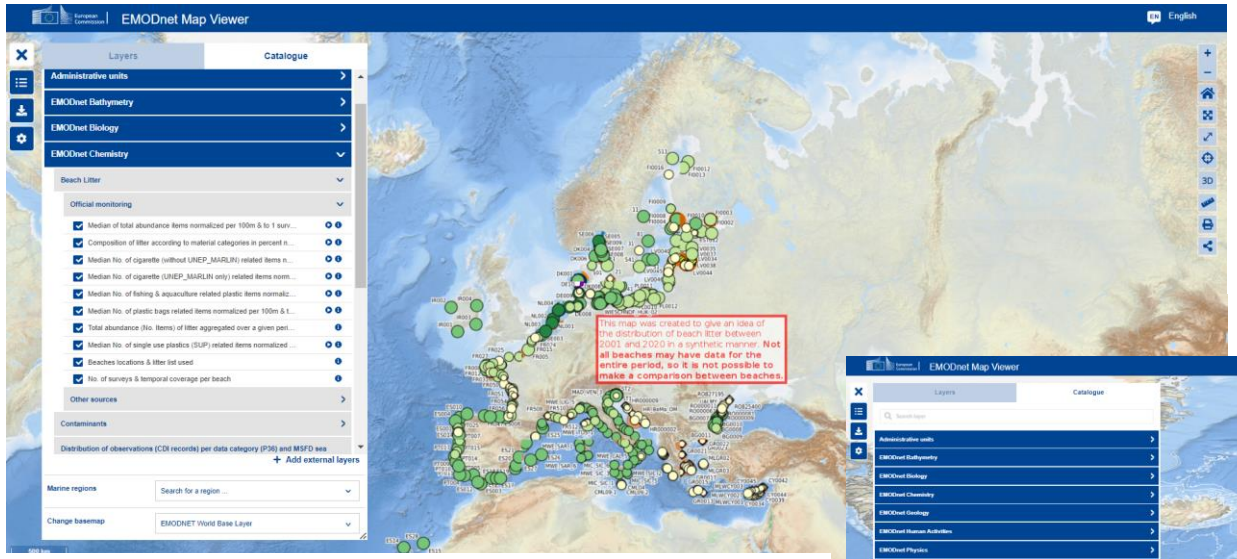
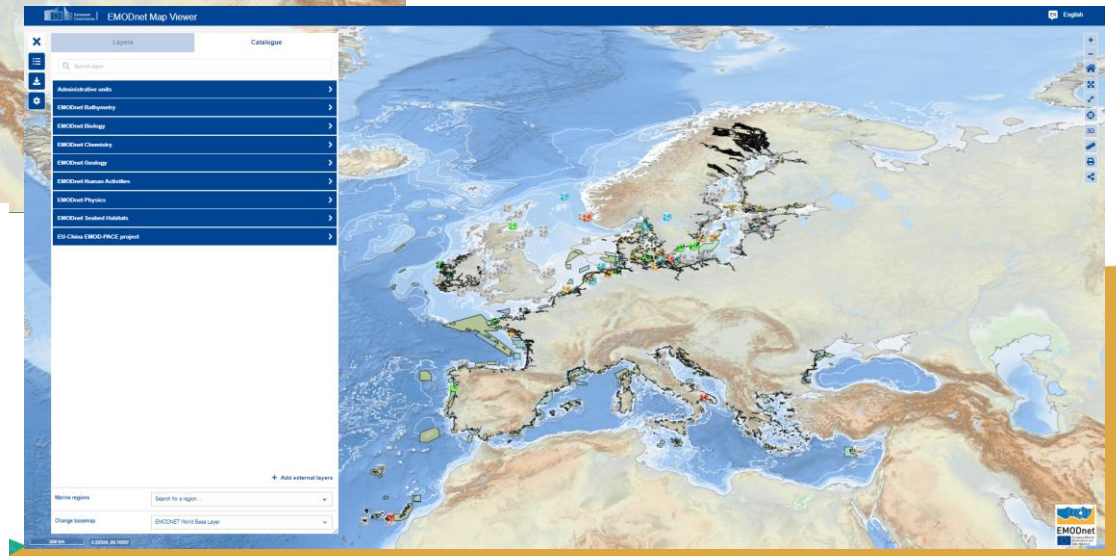
Session 5, Panel 1 EMODnet for EU Policy

Kate Larkin, EMODnet Secretariat

EMODnet's pan-European multi-disciplinary & transboundary *in situ* marine environmental and human activities data, data products and services offer users trusted and FAIR marine knowledge to underpin EU Policy implementation.

Findable Accessible Interoperable Reusable



EMODnet offers a pan-European beach litter database, produced in collaboration with and used by the EU JRC/MSFD Technical Group on Marine Litter.


EMODnet hosts Member State Maritime Spatial Plans and is a hub for information on ocean health and human activities across European regional seas, to inform National and transboundary MSP.
